Entry method: Type
Electronic consent: 2026-09-11
I have reviewed this document and agree to sign it electronically.

Document integrity

Original SHA-256: aa
Completed PDF SHA-256: bb
PDF seal: Not configured
Audit integrity: Consistent; 2 chained events.

Audit Trail

Time	Event	Actor / details
2026-09-11 04:30:00 UTC	Sent	System: Fictional preview — not a real contract
2026-09-11 04:35:00 UTC	Completed	alex@example.test: All signers completed

This completion record describes events recorded by Open E-Sign ERPNext. A signature image is not a cryptographic seal or independent proof of identity. Database audit hashes alone are not an independently trusted digital signature. Location is not inferred from an IP address.
